## CRC ECO COMPLEX BLUE

Water-based cleaner and degreaser

### 4. DIRECTIONS

---

- CRC Complex Blue is effective in a trigger sprayer, pressure washer, steam cleaner, dip tank and as bulk cleaner.
- When cleaning fabrics, always spot test on a hidden surface first.
- Do not use CRC Complex Blue on leather or non-washable surfaces. The product is not recommended for wood surfaces.

#### 4.1. Full strength

Use undiluted to remove grease, oil and other heavy contaminants from machinery, parts, tools and equipment. Wet surface first with water for best results. Apply directly to surface to be cleaned. Allow to penetrate for one minute or more. Rinse with cold water or wipe with damp cloth or sponge. Heavy deposits may require scrubbing with a brush or sponge. Repeat if necessary.

#### 4.2. Diluted

Best results are obtained when using warm water (+50°C) for dilution. After application rinse with cold water. The suggested dilution ratios (e.g. 4:1 - add 4 parts water to 1 part CRC Complex Blue) prepared below are guidelines. Every cleaning application will vary in the amount of soil to be removed. It is suggested to try the lowest (most cost effective) ratio first. If soil removal is not acceptable, repeat washing or increase the strength of the solution.

Application	Cleaning method	Dilution ratio
Heavy equipment, engines, trailers, forklifts, motors.	Trigger sprayer.	Full strength - 4:1
Heavy equipment, engines, trailers, forklifts, motors.	Pressure washer	4:1 to 8:1
